

TATIANA PATRUSHEVA

Senior Data & Analytics Professional | Power BI · Data Engineering · Data Science

Milton Keynes, UK | 07535 294935 | patrushevtatiana@gmail.com | [LinkedIn](#) | [Portfolio](#)

Right to work in the UK — no sponsorship required

PROFILE

Broad senior data professional with 4+ years across the full data lifecycle: **business intelligence (Power BI), data engineering (Fabric, Azure Data Factory, Databricks), and data science (ML, LLMs)**. Currently leading a Microsoft Fabric migration and hands-on pipeline engineering while managing external engineering suppliers and budgets. Track record of measurable impact: **80% capacity-cost reduction, 50% external support cost reduction, 30+ leadership dashboards across £1B+ of projects**.

WORK EXPERIENCE

- ACO Technologies | Shefford, UK — **Power BI Business Analyst (Data & Analytics Lead)**

Nov 2025 – Present

 - Data engineering & platform migration:** lead the migration of data preparation workloads to **Microsoft Fabric** (delivery Oct 2026), owning solution design and build; perform hands-on engineering on the legacy platform, resolving and maintaining **Azure Data Factory and Databricks pipelines** that keep business-critical data flowing
 - Vendor & cost management:** cut external support costs by **50%** by re-tendering the engineering supplier and insourcing part of the workload; previously managed a team of 2 external data engineers, owning delivery, solution quality, and payment approvals
 - Power BI optimisation:** re-engineered core semantic models, reducing capacity usage from **4M to 800K CU (–80%)** and significantly improving performance, scalability, and platform cost efficiency
 - Stakeholder leadership:** partner with business stakeholders to shape reporting priorities, translate business questions into data solutions, and build business cases for improvements across ingestion, storage, and reporting
- Skanska | Durham, NC, USA — **Analytics Developer**

Jun 2023 – Sep 2025

 - Delivered **Python, SQL, and Power BI** solutions across 15+ data sources, improving reporting accuracy and reducing reconciliation issues by **30%**
 - Data science:** developed **ML- and LLM-based tools** (OpenAI APIs, TensorFlow, time-series forecasting) for automated analysis and project planning
 - Optimised SQL, DAX, and Power Query on **5M+ record datasets**, improving reporting efficiency by **50%**; automated analytical workflows, cutting manual effort by **40%**
 - Built **30+ dashboards** used by leadership and project teams to track KPIs across **£1B+ of construction projects**
- Eridge Underwriting | Tunbridge Wells, UK — **Data & Business Services Assistant**

Apr 2022 – Oct 2022

 - Analysed insurance data using **R, Power BI, QlikView, and Excel**; identified the root cause of declining broker performance, enabling corrective business action
 - Automated weekly reporting and analysis, reducing manual effort by **30%**

KEY COMPETENCIES

- BI & Analytics:** Power BI (DAX, Power Query, Semantic Models), Microsoft Fabric, Paginated Reports (SSRS), Data Visualisation, Data Storytelling
- Data Engineering:** Azure Data Factory, Databricks, ETL/ELT Pipelines, Data Modelling, Data Quality, Microsoft Azure
- Programming:** Python, SQL, DAX, R
- AI & Machine Learning:** LLMs, OpenAI APIs, Agentic AI, TensorFlow, Time-Series Forecasting
- Leadership & Ways of Working:** Vendor & Team Management, Stakeholder Management, Cost Optimisation, Business Cases, Agile, Jira, GitHub

EDUCATION & PROFESSIONAL DEVELOPMENT

- General Assembly** — Data Science Fellow: Python, machine learning, predictive modelling; built an MRI image-classification application
- Mendeleyev University of Chemical Technology, Moscow** — BSc, Biotechnology Engineering
- Certificates:**
- Agentic AI Level 1 – Fundamentals (SuperDataScience, 2026);
 - Fabric Analyst in a Day (Pragmatic Works, 2025); Plan, Create and Deliver Your Data Story (Storytelling with Data, 2024);
 - Data Analyst in SQL & Data Analyst in Power BI (DataCamp, 2022)
